

RNE Foundation Annual Campaign

The Roswell North Elementary Foundation is the sole source of funding for the Licata Science Lab, the Life Science Extension (Chef's Lab), and the RNE Garden—including the salary of full-time teacher Liz Rains.

The Foundation also funds 5th grade scholarships to Jekyll Island, classroom technology, and a multi-year campaign to build a covered outdoor classroom.

A donation to the RNE Foundation directly supports your child's visits to the lab and garden along with other enrichment programs at the school.

I choose to support the labs and garden!

Check attached Online at cbo.io/d/RNEF Text RNEF to 56651

Please indicate how you made your donation and send this completed form to school.
